New Bivalent Omicron Booster

The new vaccine is available to individuals 12 years of age and older who have completed their initial vaccination (1st and 2nd doses), and each individual may receive one dose of the new vaccine. Those who have received the third and fourth doses of the conventional vaccine should receive the fourth and fifth doses of the new vaccine, respectively.

Please check what you should do by following below.

*Note: Vaccination after completion of the Omicron targeted vaccine has not been indicated by the government at this time.
