

Dear Cat Owners,

Neighbors' gardens, parks and roads
are not cats' toilets.

Cat wastes (poo or wee) carry parasites' eggs and many kinds of bacteria, and they can be very dangerous to us.

It is disgusting to find cat wastes in gardens, so please do not leave them outside.

Recent complains

- A cat came to my garden and left its poo and it is disgusting.
- A cat climbed up my car and scratched it.
- A cat damaged my garden plants.
- A cat hunted my goldfish (or bird).

We receive those complains a lot and many more!

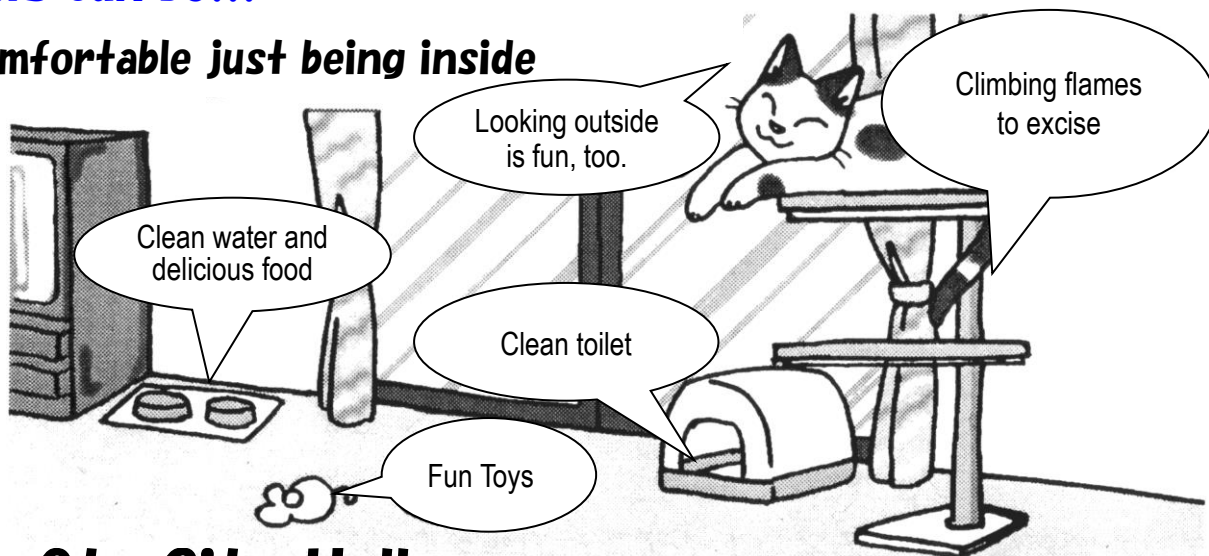

To prevent troubles

please try to keep your cat inside!

- Train your cat to use a little box (cat's toilet).
- It is your responsibility to look after your cat (feed well, keep it healthy, etc.).
- Avoid troubles with your neighbors.
- Get your cat spayed or neutered.

Cats can be...

Comfortable just being inside
