Varicella (Chicken pox)	Age Group: infants between 12 and 35 months; receive 2 doses (leave 3 or more months in between)																									
Japanese Encephalitis, 1 st Cycle	Age Group: kids between 6 to 89 months (standard vaccination age is 3 ~ 4 years old); receive 2 doses (leave 6 to 28 days in between) and 1 dose one year after the first 2 doses.																									
Measles-Rubella Combined (MR), 2 nd Cycle	Age Group: 1 year before their first year of elementary school (born between 4/2/2012 ~ 4/1/2013) Number of Doses: 1																									

The highlighted  /  portions indicate the vaccination period stipulated in the Preventive Vaccination Law. Please try and have your child's vaccination administered during the  highlighted portions as much as possible.

Preventive Vaccinations for small children (students)

The highlighted portions  /  indicate the eligible age groups for children. Please consider your child's health and of any illnesses spreading when coming in for your child's vaccination. Please consult with your primary care physician for scheduling appointments, and on details concerning which order your child should take each vaccination.

Preventive Vaccination	Method of Vaccination	2 months	3 months	5 months	8 months	1 year	2 years	3 years	4 years	5 years	6 years	7 years	8 years	9 years	10 years	11 years	12 years	13 years	14 years	15 years	16 years	17 years	18 years	19 years	20 years		
		Japanese Encephalitis 2 nd Cycle	Age Group: kids between 9 and 12 years of age Number of Doses: 1																								
Diphtheria-Tetanus Combined (DT), 2 nd Cycle	Age Group: kids between 11 and 12 years of age Number of Doses: 1 (the standard vaccination age is for kids in 6 th grade)																										
Human Papillomavirus (Vaccine for Uterine Cervical Cancer)	Age Group: female students in their 1 st year of junior high to 1 st year of high school in 2018 FY Vaccination periods will differ based on the type of vaccine ① Cervix: 3 total doses – wait 1 month after the 1 st dose; 3 rd dose taken 6 months after the 1 st dose ② Gardasil: 3 total doses – wait 2 months after the 1 st dose; 3 rd dose taken 6 months after the 1 st dose																										
Japanese Encephalitis Relief System ※This relief system is for individuals who missed their vaccinations due to suspended vaccination recommendations	Japanese Relief System 1 st cycle ① Age Group: individuals under 20 years old born between 4/2/1995 ~ 4/1/2007 who have not completed the 1 st cycle ★ administer the remaining doses left out of the 3 doses from the 1 st cycle, leaving 6 or more days in between each dose (if you have not received any yet leave 6 months in between the 2 nd and 3 rd dose)																										
	Japanese Relief System 1 st Cycle ② Age Group: individuals 9 to 12 years old born between 4/2/2007 ~ 10/1/2009 who have not completed the 1 st cycle ★ administer the remaining doses left out of the 3 doses from the 1 st cycle, leaving 6 or more days in between each dose (if you have not received any yet leave 6 months in between the 2 nd and 3 rd dose)																										
	Japanese Relief System 2 nd Cycle Age Group: individuals 13 to 19 years old born between 4/2/1995 ~ 4/1/2007 who have completed the 1 st cycle Number of Doses: 1																										

The highlighted  /  portions indicate the vaccination period stipulated in the Preventive Vaccination Law. Please try and have your child's vaccination administered during the  highlighted portions as much as possible.

★ If you are not able to receive vaccinations within the specified inoculation periods, please have them administered as soon as your circumstances allow. ★ The sale of DPT (Diphtheria, Pertussis, and Tetanus) vaccinations have concluded; for those in the middle of their DPT vaccinations, please consult your primary care physician. ★ When receiving the Measles-Rubella Combined (MR) vaccination, you may choose either receiving a Measles-only or Rubella-only vaccination instead.

★ The maximum age indicated in each age group refers to the last day before their next birthday (e.g. 9 to 12 years old = up until the day before their 13th birthday) ★ Please note, vaccinations administered outside of their inoculation period (without a justifiable reason) will not be covered by public funds to help with expenses.

★ There may be changes to the vaccination forms or vaccination methods in the case there are revisions to the Preventive Vaccination Law. Please make sure to check for such changes at the *Kouhou Ota* (Ota public information paper) or Ota City homepage for notices.

Rubella Vaccination Subsidy for Adults

Eligible Persons: individuals who have an address registered in Ota on the day of vaccination and apply to all of the following below.

- Ladies who are having or planning to have a baby (or their husband/partner)
- Husband/partner of pregnant woman

However, the following individuals below do not apply

- Those who have clearly caught rubella in the past
- Those that have already had 2 doses of the rubella vaccination
- women who are pregnant or possibly pregnant

◆ Subsidy Duration: April 1st 2018 – March 31st 2019 ◆ Subsidy Amount: Rubella vaccination 3000 yen; Measles-Rubella Combine (MR) 5,000 yen

◆ Payment Responsibility: difference between the vaccination price (set at medical facility) and subsidy amount received

◆ Method of Vaccination: apply at a health hoken center beforehand; bring your Ota Rubella Vaccination Coupon (Adult) to your medical facility

◆ Facilities Conducted at: designated medical facilities within Ota (those vaccinating outside need to consult with a health hoken center beforehand)

Maternity & Child Health Record Book (Boshi Kenkou Techou) Issuance

If you notice you are pregnant, you should visit a medical facility promptly in order to receive your *Maternal & Child Health Record Book* and checkup to ensure a safe, healthy pregnancy and delivery.

Location: any health hoken center (closed on Sat., Sun., holidays, Year-End & New Year holidays)

Day & time: weekdays from 8:30am ~ 5:15pm

Content: *Maternal & Child Health Record Book* and Pregnancy Health Checkup Medical Questionnaire "Ninpu Kenkou Shinsa Jushinhyou", health consultations for pregnant women, and a medical ticket for a hearing test for newborns.

Things to bring: Pregnancy Notification "Ninshin Todokedesho," Individual Number Notification Card, and I.D. (driver's license, Resident "Zairyu" Card, etc.)

Baby Home Visit (The public health nurse in charge of your region will contact you to schedule a visit.)

- **Content:** a public health nurse will explain the infant health program and exams, preventive vaccinations, child-rearing, etc.
- **Eligibility:** families with a baby that have an Ota City address.

4-month-old Infant Health Examinations (A Health Examination Guide will be sent before medical checkups.)

- **Reception hours:** 1:00PM ~ 2:00PM
