

Matters Concerning Oversized Trash

Cautionary Points

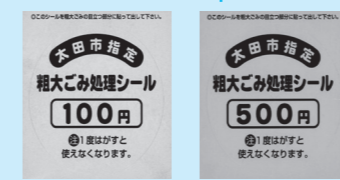

- Trash that cannot fit or be disposed of in their specified bags due to size is considered oversized trash.
- Unless specified in the chart below, all prices are for 1 unit of the listed item.
- The term “length” in the chart below refers to whichever dimension (length, width, height, or diameter) is longest.
- Up to 5 items can be picked up during door-to-door collection. (Please ask a specialized disposal operator (“senmon gyosha”) for large amounts of trash.)
- For door-to-door collection, the items must be on your land and directly next to a road on the specified day.
- Trash is taken from your land to the truck but not from inside your house. (Please make sure your items are not stored inside but outside to be picked up.)
- Remove any batteries in oversized trash before disposal.
- For items listed below that fit in the Ota City-specified trash bags, stickers are not required.

Type	Item	Trash station	Door-to-door
