3 Enter the amount that you would like to use.

4 Tap "Confirm."

5 Keep touching the green ●, and slide it to the right.

6 Show the screen to the staff to complete the payment.

Frequently Asked Questions

Q What order are they used if I have more than one type of e-money & points?

A E-money & points will be used automatically starting from the one with the closest expiration date. If the e-money & points that you own have the same expiration date, the one that the least number of stores available will be used first. If the number of stores where e-money & points can be used is also the same, the e-money & points will be used in the order of the oldest date of receipt. You can arrange the priority going to the menu "Priority for using e-money & points."
