

Ota City Economic Revitalization Project

Dear Citizens of Ota City,

We have been deeply concerned about the growing burden on daily living expenses caused by recent inflation. In order to support you at this time, we have decided to distribute the city's flat-amount E-Voucher, *OTACO Teigaku Card*, to our citizens, which you can use for purchases at stores in the city, and we hope that this will provide some relief for your daily lives.

We would like to take this opportunity to ask for the continued support from all citizens and promise that we will continue to listen to the voices of our citizens to build an ever-improving municipal administration.

Thank you for the understanding and cooperation and we sincerely wish you all good health and happiness.

Masanobu Hozumi
Mayor of Ota

Eligible Citizens
